

NOCSAE Shin Guard Requirements

Beginning Fall 2012:

All players must be equipped with NOCSAE approved shin guards. Referees will be checking each player before games to ensure that shin guards meet this requirement and will ask the coach if all players are properly equipped. See NOCSAE logo, above.

All shin guards must have the NOCSAE symbol printed **directly** on the shin guard. If a player does not have approved shin guards, the player must leave the field and cannot play until they are equipped with approved shin guards. Please contact your coach if you have any questions or need direction in finding NOCSAE approved shin guards.
